The Remains of Queen Victoria Escorted Through the Capital on Their Way to Windsor.

## STREETS WERE MASSED WITH PEOPLE.

The Coffin, Mounted on a Gun Carriage, Drawn by the Same Horses that Drew Her Majesty in the Jubilee Procession-The Arrival at Historic Windsor.

London, Feb. 2.-With every circumstance of splendid pomp befitting the obsequies of so mighty and well beloved a monarch, all that is mortal of Queen Victoria has been borne through the streets of the capital and started towards the ancient fortress palace of the sovereigns of England. The solemn magnnificence of Friday's opening phase of these last rites was duly maintained. Perhaps the stately grandeur of the sorrowful pageant through the swarming streets of London, with hundreds of thousands of mourners forming a black border to the route, will never be surpassed.

An Absence of Black. There was in Victoria's funeral procession an absence of that black ceremonial generally connected with the final progress to the grave.

The coffin was drawn by cream colored horses. The pall was white, and the uniforms of the troops and the gold trappings of the foreign sovereigns, Ainces and representatives liant coloring to the scene. The chief mourner himself, with his field marshal's uniform, even though this was partially hidden by his overcoat, surrounded by his corps, helped to leaven the symbols of morning marking the route.

Many Distinguished Mourners. Never in English history has a sovereign been borne to the grave attended by so many distinguished

mourners. The gathering of crowned heads surpassed those who rode in the jubilee procession. All the great officers of state participated.

The display of the naval and military forces reached the great total of 35,000 men.

At Victoria Station.

The scene at Victoria station from early morning was most brilliant and impressive. For the day's ceremony the station was transformed into au immense reception hall. All trains were stopped before nine o'clock, and the long platforms were covered with purple cloth. On another platform, facing that at which the queen's train was to arrive, guards of honor, composed of blue jackets, and grenadier guards, were drawn up. The broad roadway separating the two number of little purple-covered platforms, from which members of the royal party were expected to mount their horses, were placed at intervals

tolling of bells at a quarter past eleven announced to the countless multitude who had been crowding London's muddy streets since daylight that the funeral procession with the body of Queeen Victoria had be-

gun its passage through the capital. The people fought for hours for a glimpse of the coffin and the kings and others following it. They saw a long procession of soldiers, a passing show of dazzling regailia, with a hundred royalties crowding after, and then dispersed, while all the church chimes of the city were ringing and

muffled dirges were played. The Three Chief Mourners. Immediately after the company, about the coffin three royal mourners rode abreast. King Edward VII. was the central figure of the three, but no less ostentations personage was seen in the procession.

A black chapeau, with a plume of white feathers, was on his head, and a long black cloak was buttoned around him and hung down over the big, black horse which he was riding. The king's familiar face seemed grave and careworn.

He looked straight ahead, apparenty at the gun carriage on which was the body of the sovereign, whose glory and responsibilities he had inherited. He did not see, or gave no sign of seeing, the long ranks of sol him. He passed like a man alone, who neither thought of the world about him, and the sentiment his presence inspired was only sympathy

His imperial majesty glanced right and left as he rode, and his hand was frequently raised to the red and white feathers hanging over his hat, as he responded to salutes. On the king's left rode his brother, the duke of Connaught, a man of soldierly appearace, almost unnoticed and unrecognized by the people.

The Body of Queen Victoria Borne, Amid Naval Pomp, From Cowes to Spithead.

THROUGH TEN MILES OF WARSHIPS.

Minute Guns and the Strains of Chopin's and Beethoven's Funeral Marches Furnished the Accompaniment to the Mournful Procession of Royal Yachts.

Cowes, Feb. 2.-With grand, yet nournful, display of haval pomp and power, the body of Queen Victoria was borne from its quiet resting place in Osborne House to Portsmouth, the heart of England's navy. Not since Admiral Cervera's ships lit up the Cuban coast with their self-consuming fires has anything been seen which in tragic splendor approached the naval spectacle presented.

Broadsides and Minute Guns. The half hundred red fighting ships that fired their broadsides and mindiers hedging back the populace about ute guns were inferior in strength to the force gathered in the same waters for the jubilee celebration, but the lack of formidableness was fully atoned for by the solemnity of this fleet in mourning. Over the still waters, be-Beside King Edward rose Emperor tween the roll of the six-pounders, William, his nephew and neighbor. came strains of Chopin's and Beethoven's funeral marches.

The Silent Crews.

The crews, accustomed to cheer vith heartiness which belongs only to jackies" stood silently along the decks, and the flags which usually float defiantly in the breeze, drooped half way down the halyards. The most powerful fleet England could gather on short notice lay inert and silent save for the mournful strains of the bands and the woeful sound of guns that betokened neither peace nor war, but death.

"First, It forms a bond of union with the work of to-day, even though the veteran has not kept in close touch with his own society. In many cases other duties have come to him. and he has felt that the true spirit of Christian Endeavor, called him to take them up even at the cost of his active membership. How many pastors, evangelists W. M. C. A.'s secretaries and Sunday school superintendents have heard this call we can never know, but one thing is certain -their endeavor work and study fitted them for those places, and while they do not count in the membership. the splendid influence goes on and counts for righteousness and the bringing in of the kingdom.

"Then the younger workers see that those older ones are still with them in spirit and realize the need of faithful work in the society, that so they too may be fitted for the place when the call comes to them.
